Soft material lines the sensitive under jaw

The Absorbine[®] UltraShield[®] brand Fly Bonnet has been specially designed by a team of horse experts to provide a comfortable fit while giving maximum protection for your horse's face, ears, and jowls. Extra soft netting protects the horses ears with comfort.

Rip Shield[®], the most technically advanced tear-resistant material is highly durable, lightweight and soft. Rip Shield black screening provides the greatest visibility for your horse while keeping out flies and the infections they carry, as well as gnats, dirt and debris.

GUARANTEE: If you are not satisfied with the quality of this, or any Absorbine product, we will refund your money. The durable construction of our UltraShield brand Fly Bonnet is guaranteed for one year against defects in material and workmanship.

FOR BEST RESULTS: Be sure to check your horse's face and eyes daily, and periodically wash your Fly Bonnet. Two safety straps that can be trimmed with scissors secure the bonnet and allow for individual adjustments.

DIRECTIONS FOR USE: Directly approaching your horse with the Fly Bonnet may startle him. We recommend that you:

1. Start with the throat strap open.
2. Approach your horse from the left side and gently move the Fly Bonnet from the throat area up the left side of the horse's head.
3. While covering the horse's left eye with your hand, fit the Fly Bonnet over the horse's ears.
4. Pull the main section of the Fly Bonnet down over the horse's face and secure the Fly Bonnet's throat straps under the jaw with the fasteners.
5. Adjust as necessary for safety and comfort.
6. When removing the Fly Bonnet be sure to gently unlatch the fasteners. The sudden "clipping" sound may startle your horse and make him jump.

UltraShield[®] Brand Residual Insecticide & Repellent is the most technologically advanced insect repellent on the market. Three active ingredients knock down flies and other insects fast and keep them away for up to 14 days.

- Water-based formula.
- Contains coat and skin conditioners, including aloe and lanolin.
- Contains two sunscreens.
- Pleasant citronella scent.
- Kills fleas and ticks on dogs.
- Convenient, ready-to-use formula comes in gallon, quart spray and handy towelette.
